MADMAN DOG SHOW

Hello and nice to meet you my name s Fujino I wonder if anyone's looked at the next page and wondered what this is all about Sorry for starting off with a naked butt without so much as an explanation This is a manga about Akira after he was carried off by Gunzi He lives the life of a pet in the castle

It's a little bit like a Kau x Aki manga which I've released earlier and it begins with Kau-tan worrying about how worn out Akira is To the new readers I apologize for the unkind beginning and for those who aren't, I m sorry if begins so suddenly

I m seriously reflecting over how I thoughtlessly rushed ff forward to the setting I d fantasized about Sorry to start off with all this but I hope you ll enjoy ff in one way or another For those who are okay with seeing poor Akira abused please read on

Part of me feels sorry for Akira and part of me wants to draw him in pain some more. I said something like that in the last Akira book I published too, didn't I? I want to do horrible things to Akira when he's with Gnnzi! Akira in pain is so sexy! It's too bad it's not sexy when I'm drawing, but it's very stimulating to draw poor Akira. It's also fun drawing Gnnzi doing whatever pleases him! Also, this time I did just a little Kiriwar x Aki and Kau x Aki, but I think I want to do more! When the idea does takes form, I want to make a manga of it sometime.

Well then, this is it. Thank you for reading about Akira's poor butt.

Fujino / Inugata Summit

When I re-read this all I talk about is "Akira, Akira" (laugh)
